

## Cut It - Rake It - Prevent It!

### Jenlis Tools for Mechanical Weed, Algae & Muck Control

**Cut It:** Use the Weed Razer to cut vegetation off quickly at the roots.

Model	Blade Width	Rope Length	Best Use
Original	48"	25'	Great for general pond upkeep
Pro	30-62" Adj.	25'	Adjustable for light to heavy growth

### Weed Razer<sup>®</sup> Cut Through Your Lake & Pond Weeds in Just Minutes

These unique V-shaped weed cutters with razor-sharp blades are made to cut or shear just about any type of rooted aquatic vegetation such as milfoil, lily pads, pond weeds and even cattails. For weeds farther into the pond, the included rope can be thrown and retrieved from up to 25'. Includes 5' handle, 25' rope and blade sharpener. The Weed Razer is available in two models: The original 48" wide Weed Razer and the 62" Weed Razer Pro. The Weed Razer Pro comes pre-assembled with adjustable blades. When vegetation growth is light, use at full 62" width. For thick or heavy growth, adjust the blades to as little as 30" making removal more manageable

#580113 • 30-62" Adjustable Weed Razer Pro

**Rake It:** Use the Weed Raker or Razer Rake to remove cut vegetation, unrooted plants and algae.

Weed Raker - Large tines allow for maximum removal with every toss.

### Weed Raker<sup>™</sup> Remove Pond Weeds That Cause Pond Muck

Get to the root of your lake or pond weed problem with the longest, widest, deepest aquatic lake rake in the industry. With the 37" wide rake head, long 8" teeth, and sturdy aluminum handle, the Weed Raker can easily remove the tangled roots of aquatic vegetation. Removing vegetation before it decomposes will greatly reduce pond muck. Includes 11' handle and 43' rope.

### Razer Rake<sup>™</sup> 3-in-1 Collapsible Pond and Beach Rake

This 36" wide, versatile rake assembles easily with push button snap connectors. The razor-sharp teeth make it perfect for digging, cutting and mechanical removal of weeds, algae, muck and debris. The 9' aluminum handle extends your reach for shoreline debris. Cast and retrieve by attaching the included 25' rope and detachable floats for a smooth toss. Finally, finish the job by using it as a professional-grade landscaping rake excellent for dressing beach sand! Collapsible for convenient storage.

## Cut It - Rake It - Prevent It!

### Mechanical Weed & Muck Control

**Prevent It:** Use the Muck Razer to agitate the muck on the bottom of your pond, infusing it with oxygen and accelerating decomposition. The Muck Razer's hooked teeth also work to dig out stubborn aquatic weeds and churn up small debris, leaving you with a clean, weed-free beach area.

### **Muck Razer™** **The Ultimate Underwater Tiller**

Designed with hooked teeth made of galvanized steel, the Muck Razer will help reduce muck and dig out the roots of aquatic weeds, giving you clean, weed-free swimming and beach areas. Easy to use, simply place the drum into the water and push back and forth across any muck or submerged aquatic vegetation. This agitation aerates the muck layer allowing natural bacteria such as MuckAway® to accelerate muck decomposition helping to produce a firm pond bottom. Regular use of the Muck Razer will prevent the regrowth of aquatic plants. The Muck Razer may also be used on beaches to remove terrestrial plants while fluffing the sand. Includes 12' three-piece handle, 24" x 6" dia. drum and heavy-duty galvanized steel teeth.
